

LEEPER'S STAIR PRODUCTS

America's Premier Manufacturer of Quality Stair Parts!

The warmth of wood and the strength of iron...a beautiful combination.

WWW.LEEPERS.COM

Trend Setting Hollow Balusters

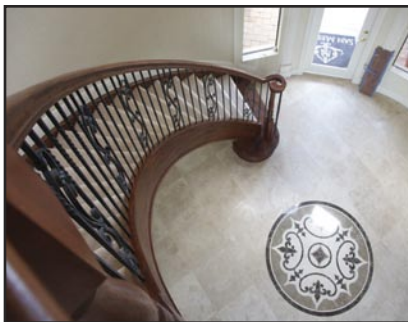

The Benefits of Hollow Balusters

- Lighter for easier handling in the field
- Strength in the baluster using tubular steel
- Cheaper freight costs on non-prepaid orders in comparison to solid bar balusters
- Quicker trim cuts and blade savings compared to working with solid bar balusters
- See what the "industry buzz" is all about

A New Generation of Stair Parts

For over 50 years, Leeper's Stair Products has been committed to providing our customers with the finest interior wood stair parts. We have achieved this by providing our customers quality products, great service, and competitive pricing. The cornerstones of success include selection of quality raw material for our turned parts, an inventory position of finished parts that allows for same day shipment, and innovation for introducing new products and services.

Leeper's Stair Products is proud to announce our expanded portfolio of powder coated iron stair parts featuring the "hollow" baluster line.

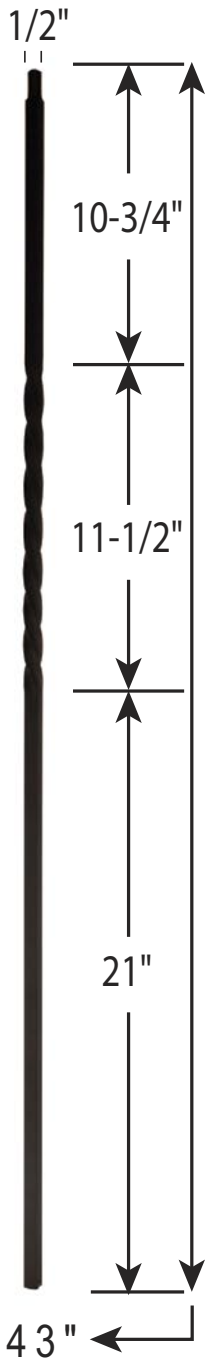

Leeper's Stair Products has created a line of products that the discerning home owner or builder would covet and has created an engineered product that the trim specialist would enjoy installing. Building and distributing products that add value to the home while keeping the trade in mind...a great combination! Leeper's Stair Products.

Leeper's Stair Products Difference

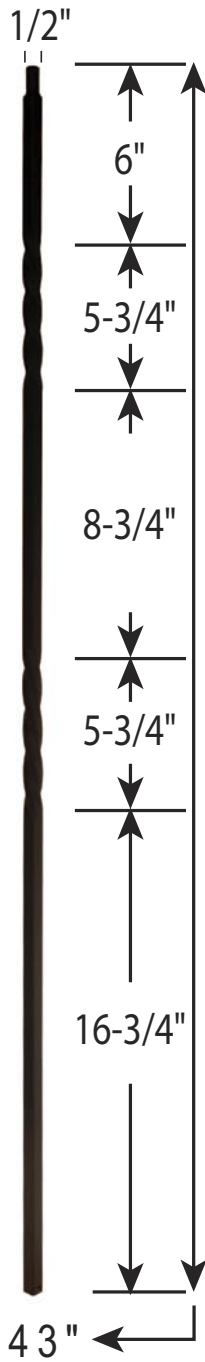

- One-stop shopping! Quality wood and iron stair parts.
- All iron balusters and accessories are in stock for same day shipment.
- Create your own design or provide a difficult to source sample and our mill will produce an identical product through our Contract Manufacturing.
- Raw Steel Balusters - all 28 profiles are carried in raw steel. Custom powder coating available or install with that raw steel look.
- Shoes - uniform and consistent...what a novel idea! No more wondering if the shoes fit?
- All iron balusters are centered from the top measuring a consistent 43" in length allowing for custom trims regardless of the type of staircase.
